

R2Gas Biomethane Workshop

Theme: *Biomethane – The most evident renewable fuel today*

Date: 25th April 2023 (Quartier Belvedere Central)

08:15 Registration and welcome coffee

09:00 Welcome and House keeping

09:15 Frame conditions

-) The impact of the 2022 energy crisis on the prospects for biomethane in Europe
Speaker: Arthur Wellinger (R2Gas)
-) Expected developments on the European natural gas market 2022-2030 (with special view on the Central-East Europe region)
Speaker: Dániel Garai, CEO CEEGEX
-) Renewable gases in Austria: Deployment and upcoming policies
Speaker: Franz Kirchmeyr, ARGE Kompost&Biogas

10:30 Coffee Break

10:50 Technology

-) Conversion of biogas plants from generating electricity to producing biomethane
Speaker: Frank Scholwin (R2Gas)
-) Up-to-date biomethane liquification providing new usage and distribution options
Speaker: Tobias Ziereis (Gruppo AB)
-) Latest developments in the field of biomass gasification
Speaker: Richard Zweiler (R2Gas)
-) Prospects for integrating anaerobic digestion with Power-to-Gas
Speaker: Kornel L. Kovacs (R2Gas)

12:15 Lunch Break

13:30 Input materials

-) A European perspective on biomethane production from by-products
Speaker: Alessandro Armani (Biogest GmbH)
-) Potential and conditions for producing sequential crops for biogas
Speaker: Wolfgang Gabauer (R2Gas)
-) Challenges in utilising algae/seaweeds as energy sources
Speaker: Theo Verleun (R2Gas)

14:45 Coffee Break

15:05 Markets

-) Biomethane supply-demand forecast for Europe 2022-2030
Speaker: Jan Stambasky (R2Gas)
-) Long-term cooperation between producers and traders in support of new biomethane investments
Speaker: Zoltan Elek (Landwärme GmbH)
-) Cross-border transfer of biomethane certificates
Andreas Wolf (AGCS)
-) Monetizing the “green” value of biomethane
Speaker: Attila Kovacs (R2Gas)

16:30 Farewell drink

17:00 End of Workshop
